SSF STREET GRAFFITI SHOWCASE

14 TO 30 JUNE 2013
FAR EAST PLAZA (outdoors)

This year's Graffiti Art Showcase will see a good mix of old and new artists. SSF is proud to see the return of the artists who first participated in SSF during its early years, to share their vision when graffiti art was in its early stages. Back when the art form was merely taken as a passing fad, no one would have thought that it would grow extremely fast, creating an enthusiastic community of street artists in its own path. SSF 2012 saw an overwhelming response when a competition was held at Far East Plaza with over 12 crews making their mark. 2013 will be just as exciting!

TR853-1

As an activist in the local street art movement, TraseOne is highly regarded as one of the leading pioneers who is always pushing boundaries and overseeing the progression in the scene since he started engaging in the arts circa '99.
